

My Pan Am Poem

Pan Am made the going great
with World Wings we stay and live out our fate
many issues and decisions
each chapter's goals and persistence

The community at large we still serve
many through motherhood and volunteerism
some went back to school
took the challenge, got the degree and kept cool

with Pan Am, studying and struggling in training
and passing without failing
what a a pleasure to treasure
dreaming of new flights with no pressure

One day our Pan Am wings were pinned
fit for flying and free
the World was ours to be
bidding for flights perhaps you and me

What a pleasure to treasure
memorable trips around the world
from South to West, North and East
South America, Pacific, Asia, Europe, Africa

Years go by with memories we hum
we to our World Wings conventions come
for warm memories, laughter and fun
we quite nostalgic become

Different cultures, languages and cuisines
Pan Am brought people from afar
she was definitely our star
and set a high bar

The same unique mission
perhaps with a new vision
we all wish her success
she earned it like a duchess

Let's salute Pan Am
our great Ma'am
wish her happy flying into the century next
she was and still is the very, very best

Pan Am brought us together
World Wings keeps us together

Created for our Convention in Oakland, California Oct. 20-23, 1988
