As the industry grew and became more accessible and consumer-focused, flight attendants and in-flight amenities became an important part of the flying experience. Displays and artifacts provided by the 1940 Air Terminal Museum will feature early pilot and flight attendant uniforms and a "sampling" of in-flight comforts and conveniences, like aircraft china, playing cards and more. Displays and images from United Airlines Foundation chronicles how commercial flight impacted airports, the maintenance industry, and the game-changing customer service department.

## September Meeting Options

We talked about Houston Farmers Market for a meeting. It has two restaurants opening this summer and one in the fall. First up Underbelly Burgers and Wild Oats by Chef Chris Shepherd. The burgers restaurant seats 12, but there are additional tables throughout the market green space. The late bloomer is Crawfish & Noodles, with a Cajun Vietnamese menu. Let Nancy Burch know if you have a preference as she volunteered to host.

## PS. August is **Restaurant Month** in Houston

Houston Restaurant Week is making its widely awaited return this year starting Aug. 1 and will run through Sept. 6. The motto this year is "Take out and Do Good" although dine-in is an option. One dollar donation is given to the Houston Food Bank for each lunch sold (more for dinner) at participating food establishments.

If anyone wants to gather for lunch during that period on a fixe prix menu for \$20.00 to donate to the Houston Food Bank, we can discuss it on the 12<sup>th</sup>.
